Professional Summary

Experienced data engineer with a strong background in designing, implementing, and maintaining data systems. Skilled in data modeling, ETL processes, and data warehousing. Proven track record of optimizing data pipelines for efficiency and scalability.

Work Experience

Data Engineer - ABC Company

- Designed and implemented data pipelines to ingest, process, and store large volumes of data.
- Optimized ETL processes to improve data quality and reduce processing time by 30%.
- Collaborated with cross-functional teams to troubleshoot and resolve data-related issues.

Data Analyst - XYZ Corporation

- Performed data analysis to identify trends, patterns, and insights to support business decisions.
- Developed dashboards and reports to visualize data trends and KPIs for stakeholders.
- Automated manual data processes, saving 20 hours per week for the data team.

Education

Bachelor of Science in Computer Science - University of Data Science - 2015

Skills

Technical Skills: SQL, Python, ETL Tools, Data Modeling, Data Warehousing

Soft Skills: Communication, Problem-Solving, Team Collaboration, Time Management

Projects

Real-Time Data Processing System

Designed and implemented a real-time data processing system using Apache Kafka and Spark Streaming to process and analyze streaming data.

Data Warehouse Optimization Project

Led a project to optimize a data warehouse by restructuring data models and implementing performance tuning techniques, resulting in a 40% improvement in query performance.

Certifications

Certified Data Engineer (CDE) - Data Engineering Institute

Hobbies & Interests

In my free time, I enjoy hiking, playing the guitar, and volunteering at local community events.
