## Professional Summary

Experienced software developer with a strong background in full-stack development. Proficient in multiple programming languages and frameworks. Proven track record of delivering high-quality software solutions.

## Work Experience

### Senior Software Engineer - Tech Corp Inc. (2018-2021)

- Designed and developed a scalable web application using React.js and Node.js, resulting in a 30% increase in user engagement.
- Collaborated with cross-functional teams to integrate third-party APIs and optimize system performance.
- Performed code reviews and mentored junior developers to ensure coding best practices.

### Software Developer - InnovateTech Solutions (2015-2018)

- Developed and maintained backend services using Java Spring framework, handling large volumes of data efficiently.
- Implemented automated testing processes that reduced bugs by 20% and improved overall product quality.
- Worked closely with clients to gather requirements and provide technical support during product deployment.

## Education

Bachelor of Science in Computer Science - University of Technology, 2015

## Skills

Technical Skills: Java, JavaScript, React.js, Node.js, SQL, Git

Soft Skills: Teamwork, Problem-solving, Communication, Time Management

## Projects

### E-commerce Platform

Developed a fully functional e-commerce platform using React.js for the frontend and Node.js for the backend. Implemented secure payment gateways and user authentication.

### Task Management App

Designed and built a task management application with Java Spring framework, allowing users to create, assign, and track tasks. Integrated email notifications for task reminders.

## Certifications

Certified Scrum Master (CSM)

Oracle Certified Professional, Java SE Programmer

## Hobbies & Interests

In my free time, I enjoy hiking, reading science fiction novels, and volunteering at local animal shelters.
