## Professional Summary

Experienced software developer with a strong background in designing and implementing cutting-edge software solutions. Proven track record of delivering high-quality code and meeting project deadlines. Skilled in multiple programming languages and technologies.

## Work Experience

### Senior Software Developer - ABC Tech (2018-2021)

- Designed and developed a new customer relationship management (CRM) system using Java and SQL.
- Collaborated with cross-functional teams to gather requirements and ensure seamless integration of new features.
- Performed code reviews and provided technical guidance to junior developers.

### Software Engineer - XYZ Solutions (2015-2018)

- Contributed to the development of a mobile application for tracking fitness goals using React Native.
- Optimized backend processes to improve application performance and scalability.
- Worked closely with product managers to prioritize features and enhancements based on user feedback.

## Education

Bachelor of Science in Computer Science - University of Technology, 2015

## Skills

**Technical:** Java, SQL, React Native, Python, JavaScript

**Soft Skills:** Communication, Problem-Solving, Teamwork, Time Management

## Projects

### Inventory Management System

Developed a web-based inventory management system for a retail client using Java Spring framework. Implemented features for tracking stock levels, generating reports, and managing suppliers.

### Online Learning Platform

Created an online learning platform using React.js and Node.js for a non-profit organization. Designed interactive courses, user profiles, and a messaging system for students and instructors.

## Certifications

Oracle Certified Professional, Java SE 8 Programmer

# Hobbies & Interests

In my free time, I enjoy hiking, playing guitar, and volunteering at local community events.
