Professional Summary

Experienced software engineer with a strong background in developing innovative solutions. Proficient in multiple programming languages and platforms, with a focus on problem-solving and delivering high-quality results.

Work Experience

Senior Software Engineer | XYZ Tech

- Developed and maintained web applications using Java and Spring framework.
- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Implemented best practices for code quality, testing, and documentation.

Software Developer | ABC Solutions

- Designed and implemented scalable and secure RESTful APIs for a cloud-based platform.
- Optimized database queries and performance for improved system efficiency.
- Provided technical support and troubleshooting for clients and internal teams.

Education

Bachelor of Science in Computer Science | University of Technology | 20XX

Skills

Technical: Java, Python, SQL, JavaScript, Spring, Git

Soft: Problem-solving, Teamwork, Communication, Time Management

Projects

Online Marketplace Application

Developed a full-stack web application for buying and selling products online. Implemented user authentication, product listings, and payment processing using Java Spring Boot and React.

Inventory Management System

Designed and built a database-driven inventory management system for tracking stock levels and generating reports. Used SQL for database management and Java for the front-end interface.

Certifications

Certified Java Developer (CJD)

Hobbies & Interests

In my free time, I enjoy hiking, playing the guitar, and experimenting with new recipes in the kitchen.
