Professional Summary

Experienced software engineer with a strong background in full-stack development. Proficient in various programming languages and frameworks, with a focus on delivering high-quality, scalable solutions.

Work Experience

Senior Software Engineer - XYZ Tech

- Developed and maintained multiple web applications using Java Spring framework.
- Collaborated with cross-functional teams to design and implement new features.
- Performed code reviews and mentored junior developers to improve code quality.

Software Developer - ABC Solutions

- Designed and implemented RESTful APIs for a mobile application using Node.js and Express.
- Optimized database queries to improve overall application performance.
- Worked closely with product managers to gather requirements and prioritize tasks.

Education

Bachelor of Science in Computer Science - University of Technology, 2015

Skills

Technical: Java, Spring Boot, Node.js, React, SQL, RESTful APIs

Soft: Communication, Problem-solving, Teamwork, Time Management

Projects

Online Marketplace Platform

Developed a scalable e-commerce platform using React for the front-end and Node.js for the back-end. Implemented payment gateway integration and user authentication.

Inventory Management System

Designed and built an inventory management system for a retail client using Java Spring framework. Integrated barcode scanning functionality for efficient stock tracking.

Certifications

Certified Java Developer - Oracle

Hobbies & Interests

Outside of work, I enjoy hiking, playing the guitar, and volunteering at local community events.
