Professional Summary

Experienced software engineer with a strong background in full-stack web development. Skilled in designing, developing, and maintaining complex software systems. Proven track record of delivering high-quality solutions to meet business needs.

Work Experience

Senior Software Engineer - XYZ Tech (2018-2021)

- Developed and implemented new features for a SaaS platform using Java, Spring Boot, and Angular.
- Collaborated with cross-functional teams to design and implement scalable solutions for client projects.
- Led code reviews and mentored junior developers to ensure code quality and adherence to best practices.

Software Developer - ABC Solutions (2015-2018)

- Designed and developed custom web applications for clients using PHP, Laravel, and MySQL.
- Optimized application performance through database tuning and code refactoring.
- Worked closely with clients to gather requirements and provide technical support during project implementation.

Education

Bachelor of Science in Computer Science - University of Technology, 2015

Skills

Technical Skills: Java, JavaScript, Python, SQL, HTML/CSS

Soft Skills: Communication, Problem-solving, Teamwork, Time Management

Projects

Online Marketplace Platform

Developed a scalable online marketplace platform using Node.js, React, and MongoDB. Implemented user authentication, product listings, and payment processing functionality.

Inventory Management System

Designed and implemented an inventory management system for a retail client using C#, ASP.NET, and SQL Server. Integrated barcode scanning and automated stock tracking features.
