Professional Summary

Experienced software engineer with a strong background in developing and maintaining high-quality software solutions. Skilled in various programming languages and technologies, with a passion for problem-solving and innovation.

Work Experience

Software Engineer - XYZ Tech (2018-2021)

- Designed and implemented scalable web applications using Java Spring framework.
- Collaborated with cross-functional teams to deliver projects on time and within budget.
- Performed code reviews and provided technical guidance to junior team members.

Junior Software Developer - ABC Solutions (2016-2018)

- Assisted in the development of mobile applications for iOS and Android platforms.
- Participated in the full software development lifecycle, from requirements gathering to deployment.
- Resolved technical issues and optimized code for improved performance.

Education

Bachelor of Science in Computer Science - University of Technology, 2016

Skills

Technical: Java, Python, SQL, JavaScript, HTML/CSS, Git

Soft: Problem-solving, Communication, Teamwork, Time Management

Projects

E-commerce Website Development

Designed and developed a fully functional e-commerce website using React.js and Node.js. Implemented features such as user authentication, product listing, and shopping cart functionality.

Inventory Management System

Created a web-based inventory management system using Django framework. Integrated barcode scanning functionality for efficient tracking of products and automated inventory updates.

Certifications

Certified Java Developer (Oracle)

Hobbies & Interests

Outside of work, I enjoy hiking, playing the guitar, and volunteering at local community events.
