Professional Summary

Experienced software engineer with a strong background in full-stack development. Skilled in designing, developing, and implementing software solutions to meet business needs. Proven track record of delivering high-quality code and driving project success.

Work Experience

Senior Software Engineer - Tech Company XYZ

- Developed and maintained web applications using technologies such as JavaScript, Node.js, and React.
- Collaborated with cross-functional teams to design and implement new features based on user feedback.
- Led code reviews and provided mentorship to junior developers to improve coding standards.

Software Developer - Startup ABC

- Designed and implemented RESTful APIs for a microservices architecture using Python and Django.
- Optimized database queries and improved system performance by 30% through code refactoring.
- Worked closely with product managers to prioritize feature development and meet project deadlines.

Education

Bachelor of Science in Computer Science - University of Technology, 20XX

Skills

Technical Skills: JavaScript, Node.js, React, Python, Django, RESTful APIs

Soft Skills: Communication, Problem-solving, Teamwork, Time Management

Projects

E-commerce Website

Developed a full-stack e-commerce website using React for the frontend and Node.js for the backend. Implemented user authentication, product listing, and cart functionality.

Task Management App

Created a task management application using Python and Django. Users can create, assign, and track tasks, set deadlines, and receive notifications for upcoming deadlines.

Certifications

Certified Full-Stack Developer (CFSD)

Hobbies & Interests

In my free time, I enjoy hiking, playing the guitar, and experimenting with new coding languages.
